

STRATEGIC SOLUTIONS FOR YOUR DEFENCE & SECURITY

Your Strategic Integrator for Innovative Defense Solutions

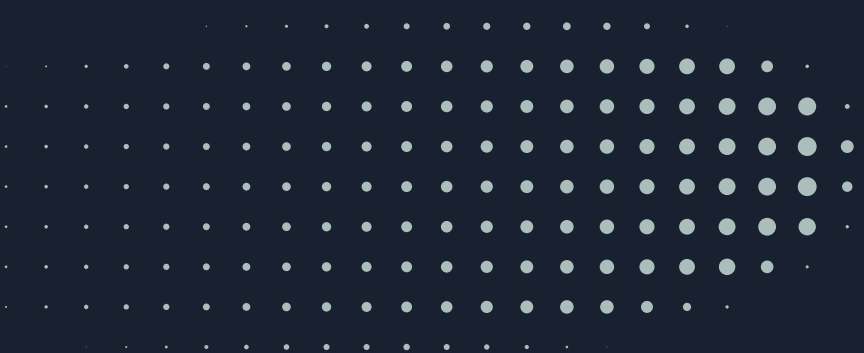

ABOUT

LUNOX Group is an international network of companies operating across diverse strategic sectors:

- Management Consulting
- Human Resources Capabilities
- Business Development & Strategic Partnerships
- Defence-grade solutions through integrated construction
- Transport & Logistics

Through the expertise of its specialized companies, LUNOX Group delivers integrated solutions tailored to global market needs, serving as a trusted partner for organizations across multiple industries, including those requiring enhanced security protocols and operational reliability.

Our corporate culture is founded on professionalism, innovation, and collaboration, maintaining consistently high quality standards and stringent compliance frameworks across every market in which we operate.

MANAGEMENT CONSULTING

Facilitating International Collaboration & Market Access

This division concentrates on developing international strategic partnerships, facilitating market entry, and connecting organizations across complex regulatory environments.

Core Offerings:

- **Strategic Partnership Development** - We facilitate connections between organisations across international markets, enabling collaborative ventures and long-term strategic relationships in sectors requiring sophisticated market knowledge.
- **Portfolio Management & Advisory Strategic oversight** of investment portfolios and business participations, with expertise in complex regulatory environments and cross-border operations.
- **Market Access Facilitation** - Comprehensive support for organisations seeking to establish operations in new markets, navigate regulatory frameworks, and develop local partnerships.
- **Specialised Sector Expertise** - Deep understanding of sectors requiring elevated compliance standards, including technical industries, specialised manufacturing, and organisations serving institutional clients.

Our Mission

We support international organisations in achieving their strategic objectives through market intelligence, partnership facilitation, and navigation of complex regulatory environments. Our network spans commercial, industrial, and institutional sectors.

Strategic Geographic Positioning

Our presence in key international hubs provides privileged access to diverse markets and regulatory frameworks:

- **Switzerland** - Neutral jurisdiction facilitating international cooperation, financial expertise, and access to sophisticated business networks across multiple sectors.
- **Singapore** - Strategic Indo-Pacific gateway providing access to Asian markets and serving as a bridge between Eastern and Western business ecosystems.
- **European Union** - Operational presence across multiple member states enabling comprehensive EU market access and regulatory expertise.

Global Network: Across E.U. Markets, Switzerland, Singapore

HUMAN RESOURCES CAPABILITIES

Comprehensive International Workforce Solutions with Enhanced Vetting Capabilities

Our Human Resources division specializes in international workforce recruitment and management, offering services that encompass personnel leasing, placement of skilled and unskilled labor, and comprehensive consulting for international staff deployment. Our experienced recruitment teams, with extensive expertise across diverse markets and sectors, provide tailored solutions to meet each client's specific requirements, including those with elevated security and reliability standards.

Key Service Offerings:

- **Personnel Leasing & Deployment** - Flexible solutions adapted to each organization's unique operational requirements
- **Skilled & Unskilled Workforce Workforce Placement** - Coverage across all competency levels with rigorous vetting procedures
- **International Personnel Consulting** - Expertise in navigating complex regulatory environments and clearance processes
- **Professional Training & Integration Programs** - Specialized courses ensuring rapid operational readiness, including technical, maritime, and industrial sectors
- **Background Verification & Compliance** - Comprehensive screening protocols meeting elevated security standards

Competitive Advantages

Our recruitment specialists possess deep market knowledge across multiple regions and sectors, enabling us to deliver customized solutions that facilitate seamless personnel integration into sensitive operational environments. Our vetting processes align with stringent international standards, ensuring workforce reliability and operational security.

Training programs span various sectors with particular emphasis on technical excellence, safety protocols, and cultural integration for international deployments to demanding operational environments.

DEFENCE-GRADE SOLUTIONS THROUGH INTEGRATED CONSTRUCTION

Proven Expertise in Specialized Infrastructure with Robust Engineering Standards

The Construction division embodies the group's extensive experience in civil and industrial projects, delivering complete, customized solutions tailored to complex client requirements, including projects demanding enhanced security features and accelerated timelines.

Project Portfolio:

- Residential and commercial developments
- Industrial facilities and manufacturing complexes
- Secure storage and logistics facilities
- Critical infrastructure projects
- Specialized installations requiring controlled access
- Rehabilitation and ground-up construction
- Turnkey solutions for demanding specifications

We distinguish ourselves through capability to deliver projects requiring enhanced security measures, controlled environments, and specialized infrastructure. Our multidisciplinary teams include engineers experienced in demanding specifications and complex regulatory frameworks.

The division maintains expertise in rapid construction methodologies, secure site management, and integration of sophisticated security systems where required by client specifications.

Excellence Standards

- **Advanced Engineering:** We deploy proven construction methodologies and quality assurance processes ensuring structural integrity and long-term durability for mission-critical applications.
- **Quality Materials & Specifications:** Selection of materials meeting rigorous standards and specifications, with full traceability and compliance documentation.
- **Regulatory Compliance:** Strict adherence to international standards, building codes, and sector-specific requirements, including enhanced safety and security protocols.
- **Project Discipline:** Meticulous project management, timeline adherence, and comprehensive documentation ensuring accountability and traceability throughout project lifecycle.

TRANSPORT & LOGISTICS

Reliable International Logistics with Enhanced Security Protocols

LUNOX Group's Transport and Logistics division focuses on operational excellence and security, providing reliable solutions for sensitive cargo and time-critical shipments across international corridors.

Service Capabilities:

- **International Transport Solutions** - Secure movement of goods across European and international routes with comprehensive tracking, documentation, and chain-of-custody protocols. Experience handling sensitive materials and controlled shipments.
- **Secure Logistics Management** - Complete oversight of transport operations from origin to destination, including customs coordination, regulatory compliance, and full shipment visibility.
- **Specialized Cargo Handling** - Capability for sensitive, high-value, or controlled materials requiring enhanced security measures, specialized handling, and comprehensive documentation.

Our Operational Standards

- Vetted and trained transport personnel
- Real-time tracking and reporting
- Secure chain-of-custody protocols
- International regulatory compliance
- Contingency planning and risk management

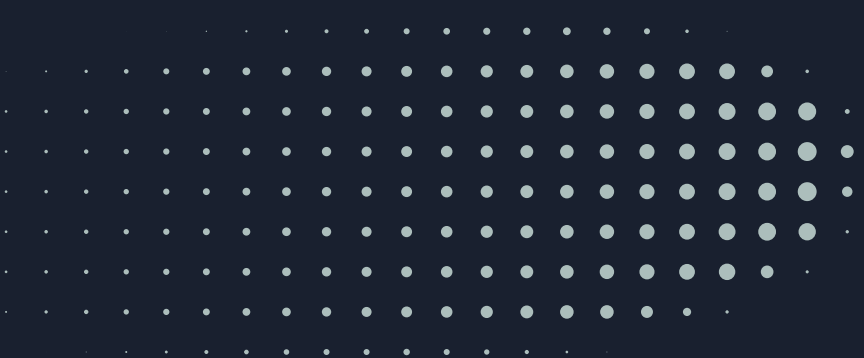

Our Approach

We distinguish ourselves through rigorous operational discipline, comprehensive security protocols, and unwavering reliability. Our logistics network is structured to handle both standard and specialized transport requirements.

- Customized security solutions
- Route optimization and risk assessment
- Complete documentation and traceability
- Commitment to operational integrity

Our Guarantee

Through our experienced logistics network and stringent operational protocols, we ensure secure, timely delivery meeting the highest standards of reliability and accountability.
